**SOURCES ACKNOWLEDGEMENTS**  
The private land data were developed for the Montana Cadastral Database Project. These data are provided through a cooperative effort between the Montana Department of Administration (DOA), the Montana Department of Revenue (DOR), other state agencies, local governments, USGS BLM and private interests. Land parcels on this map represent single ownership parcels that are at least 40 acres in size. The DOA maintains the GIS cadastral layer and the DOR maintains the private ownership information.  
The public land data from the MT Natural Heritage Program land ownership data collection. Much of this data was originally digitized by the Bureau of Land Management (BLM) in 1990-2000 under the BLM Surface Management Data project. Additional information was added by the University of Montana, Wildlife Spatial Analysis Lab during 1998-2006. Since 1998, the Montana Natural Heritage Program has made numerous updates and corrections (especially for state trust lands, Montana Fish, Wildlife & Parks areas, US Fish & Wildlife Service areas, and conservation easements). These data are based on data supplied by the various public and private land owners, and have not been verified against county or Montana Department of Revenue records.  
The base scale for the public ownership data is 1:50,000. The majority of the recent data incorporate data digitized from 1:24,000 scale maps or survey data. Private ownership data is accurate to a scale of 1:24,000 or smaller.  
Map produced September 2007 with ownership data current as of August 2007.
